

Dear parents and carers,

We are now using DoodleMaths, the award winning maths learning solution, at Dulwich Hamlet. Your child's login instructions have been sent home in their book bag today and in most cases are ***the same as your Times Tables Rock Stars logins.***

DoodleMaths will learn about your child through a set of initial assessment questions and build a personalised learning programme based on individual needs.

We recommend your child uses DoodleMaths for 10 minutes a day at least 3 times a week to notice significant improvements, however, everyday usage is encouraged where possible.

You are able to track your child's progress in maths through the parent dashboard and designated Parent Connect app which can be downloaded from any app store.

### **How to get started with DoodleMaths:**

1. Download the DoodleMaths app onto a device from any app store.
2. Ask your child to sign in using the login information attached to this letter.
3. Your child will have to complete the initial assessment screen first.
  - a. The app will then run the assessment mode in the background for about a week using the '**X- a day**' to build an individualised learning programme.
  - b. It's advised not to help your child with any questions to get a more accurate learning programme. Making mistakes is an essential part of learning!
4. Using the DoodleMaths app, press the 'grown-up' button and follow the instructions to create a parent account. It will allow you to engage in your child's learning and monitor progress daily.
5. Download the Parent Connect app from one of the app stores or log into the parent dashboard using the link- <http://parents.doodlemaths.com/>.

If you have any questions, there's help available through the DoodleMaths parent resources page- <https://www.doodlemaths.com/parent-resources/>. The parent handbook explains the functionalities of DoodleMaths in great depth.

We encourage use of the certificates available on the website to promote and reward your child's effort. There are also reward items available to purchase through the DoodleStore- <https://www.doodlemaths.com/shop/>.

**There will be two information sessions on Wednesday 10<sup>th</sup> October at 8:00 to 8:45 and 18:30 to 19:15 to fully brief you about Home Learning in Maths.**

Happy Doodling

Tom Salomonson and Victoria Begley  
(The DHJS Maths Team)
