KS/cmp/HornimanY42019

26th September 2019

Dear Parents/Carers

As part of our Science topic this half term, Animals and Their Habitats, Year 4 will be heading to the Horniman Museum to visit the Natural History exhibition, the Brick Wonders exhibition and the aquarium on Monday 7th October 2019. On the trip, we will be exploring how animals are grouped using classification keys and investigating which animals are producers or consumers, and predators or prey. There will be a final opportunity for the children to look into different animals' natural habitats both at the aquarium and in the grounds.

The children will be leaving school at 9:00am and returning by 3:25pm. Consequently, the children will need to bring a healthy packed lunch and a bottle of water with them. It would be useful if this can be put in a rucksack so that it is easy for the children to carry around. Please ensure that your child has a rain jacket on the day as we will be walking to and from the Horniman museum and may get caught in any Autumn rain showers!

Although there are no transport costs for this trip as we are walking, your voluntary contributions will kindly enable us to visit the amazing aquarium and 'Brick Wonders' exhibits.

Thank you for your continued support

Kirsty Shreeve David Galpin Willow Oddie
